Fear - The Greatest Show On Earth

Spiritual Warriors you are rattling the cages of imprisonment and unlocking the systems of injustice. Mother Earth is reclaiming her sovereignty, and the germ of your society is clearing the way, revealing what's been the GREATEST SHOW ON EARTH!

Your human spirit is the power cord to the "Divine" Plug into your hearts Warriors of the Light, plug into the frequencies of HIGHER CONSCIOUSNESS. There are many different vibrations on your earth so each of you are having a different experience from fear to love and everything in between. This unrest, chaos and confusion will EASE when you resist the struggle to hold onto your old version of reality. We encourage you to stand up and hold the world to your hearts, for this is not the end of the great awakening its only the beginning. This assault on your very existence is what drives you to not only survive but to CHANGE! This assault has been gnawing at the very fabric of your society for a very long time, and its not the assault of a VIRUS it's the ASSAULT of your FREEDOM.

We want to assure you that you are now coming into an age of AWARENESS where transparency, truth and freedom is your birthright and the shackles of illusion that held you to ransom will in time loosen their grip. Untangling the roots of fear is a journey of self realisation, many of you already understood this, and agreed to make that journey long before the SHIFT. You did this in preparation so you could extend your fearless Warrior hands to support those ready to accept a new vision.

Continue to stand up for the truth Warriors, continue to feel and know the truth and when to call it. The voices of awakening are being heard more than ever before, like waves of energy echoing through your world and rippling throughout the universe demanding truth, freedom and Light. Make your voices louder than the fear and shatter the chains of enslavement within the frequency of LOVE. The curtains are drawn, and you have the front row seats to the greatest show on earth, performing its grandest FINALE.

As you will soon see, this was never a plague to run from, It was a rescue mission to embrace, an opportunity to cleanse, heal and rebirth the world you incarnated here for.

Through humanity's suffering we see compassion growing, through your fears we see the transformation of freedom unfolding. Stay in your truth your heart and your knowing for that is where hope opens its eyes to see a greater vision of life.
